REGULAR CCSP PROJECTS: The distribution of funds is made in using an adjusted percentage in relationship to the total ONPS allocations for Park Units in each Region. No Region receives less than 10% or more than 19% of the \$1,087,000 (rounded to the nearest \$100).

NATIONAL TRAIL SYSTEM CCSP PROJECTS: The distribution of funds is made by Regional Office in proportion to the number and size of National Scenic Trails (NSTs), National Historic Trails (NHTs), and National Recreation Trails (NRTs) in those areas. Please note:

1. Each Region is entitled to a base ranging from \$14,000 to \$25,000 for national recreation trails and rails-to-trails projects. The rest is to go to national scenic trails and national historic trails.
2. These funds should not be used for trails within park units or partner trail projects outside park areas unless they are identified with National Trail System authorities.
3. Proposals for trail segments or an eligible project lying outside your Region should be coordinated with the Region in which the segments lie, but submittals are the responsibility of the trail administrator's home office. For example, an Appalachian Trail (APPA) project within the Northeast Region should be submitted by APPA.
